

Business Objects Operand Definitions

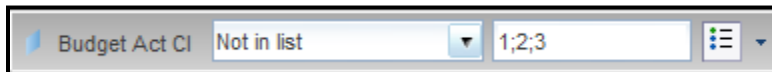

In List

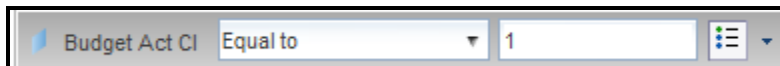

- Returns only the results equal to the values you select in the filter.
- Multiple values can be selected.

Not in list

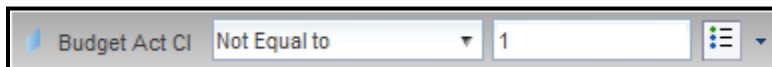

- Returns only the results not equal to the values you select in the filter.
- Multiple values can be selected.

Equal to

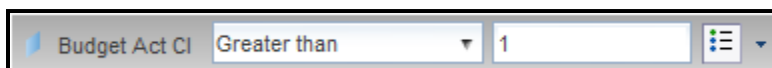

- Returns only the results equal to the value you selected.
- Only one value can be selected.

Not Equal to

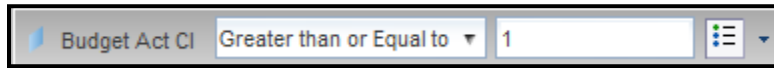

- Returns only the results not equal to the value you selected.
- Only one value can be selected.

Greater than

- Returns only the results greater than the value you selected.

Greater than or Equal to

A screenshot of a filter interface. It features a dropdown menu with 'Greater than or Equal to' selected, and a text input field containing the number '1'. To the left of the dropdown is a label 'Budget Act CI' with a blue icon. To the right is a small icon with three colored dots and a downward arrow.

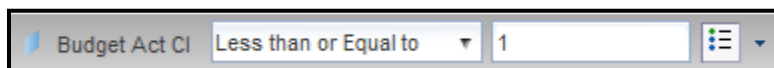

- Returns only the results greater than or equal to the value you selected.

Less than

A screenshot of a filter interface. It features a dropdown menu with 'Less than' selected, and a text input field containing the number '1'. To the left of the dropdown is a label 'Budget Act CI' with a blue icon. To the right is a small icon with three colored dots and a downward arrow.

- Returns only the results less than the value you selected.

Less than or Equal to

A screenshot of a filter interface. It features a dropdown menu with 'Less than or Equal to' selected, and a text input field containing the number '1'. To the left of the dropdown is a label 'Budget Act CI' with a blue icon. To the right is a small icon with three colored dots and a downward arrow.

- Returns only the results less than or equal to the value you selected.

Between

A screenshot of a filter interface. It features a dropdown menu with 'Between' selected, and two text input fields containing the numbers '1' and '5'. Between the fields is the word 'And'. To the left of the first dropdown is a label 'Budget Act CI' with a blue icon. To the right of the second dropdown is a small icon with three colored dots and a downward arrow.

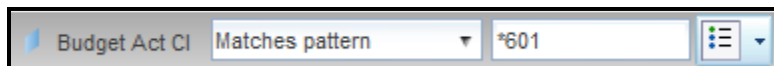

- Returns only the results between the two values you selected.

Not Between

A screenshot of a filter interface. It features a dropdown menu with 'Not Between' selected, and two text input fields containing the numbers '1' and '5'. Between the fields is the word 'And'. To the left of the first dropdown is a label 'Budget Act CI' with a blue icon. To the right of the second dropdown is a small icon with three colored dots and a downward arrow.

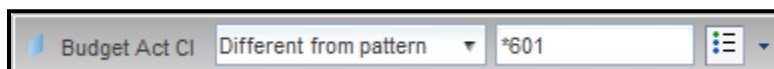

- Returns only the results not between the two values you selected.

Matches pattern

A screenshot of a filter interface. It features a dropdown menu with 'Matches pattern' selected, and a text input field containing the pattern '*601'. To the left of the dropdown is a label 'Budget Act CI' with a blue icon. To the right is a small icon with three colored dots and a downward arrow.

- Allows you to use wildcard characters to select values that match a pattern.
- For example, if you would like to see only the values that end in 601, you could type *601 in the filter.

Different from pattern

A screenshot of a filter interface. It features a dropdown menu with 'Different from pattern' selected, and a text input field containing the pattern '*601'. To the left of the dropdown is a label 'Budget Act CI' with a blue icon. To the right is a small icon with three colored dots and a downward arrow.

- Allows you to use the same wildcard characters as the Matches pattern operand, but will only return results that are different from the pattern value you selected.
